

SpeedGauge Safety CenterSM

Confidence & Insight Everywhere Your Fleet Moves

It's 7:12 A.M.

and the principal of an elementary school three states away just called your boss to say that he saw your truck pass his school at 48 MPH!

What are you going to do about it?

SpeedGauge Safety CenterSM

Based on vehicle speed – the number one factor affecting safety and fuel economy. SpeedGauge offers one of the most effective driver coaching and performance evaluation services available on the market.

- Offered to commercial fleets through our close partnership with MiFleet.
- Identify risky behavior and motivate drivers to improve performance.
- Find your outstanding optimal performers.

Take advantage of the easiest driver behavior to control

- Create a mix of alerts, reports and maps.
- Group vehicles with managers and supervisors to minimize review time and focus on coaching and rewarding drivers.
- Constantly verified and improved with data imported directly from fleets and cross referenced by SpeedGauge.

Make the most of your MiFleet investment

- Zero risk, 100% upside with low cost subscription payment model.
